Fuel Economy App Support Document
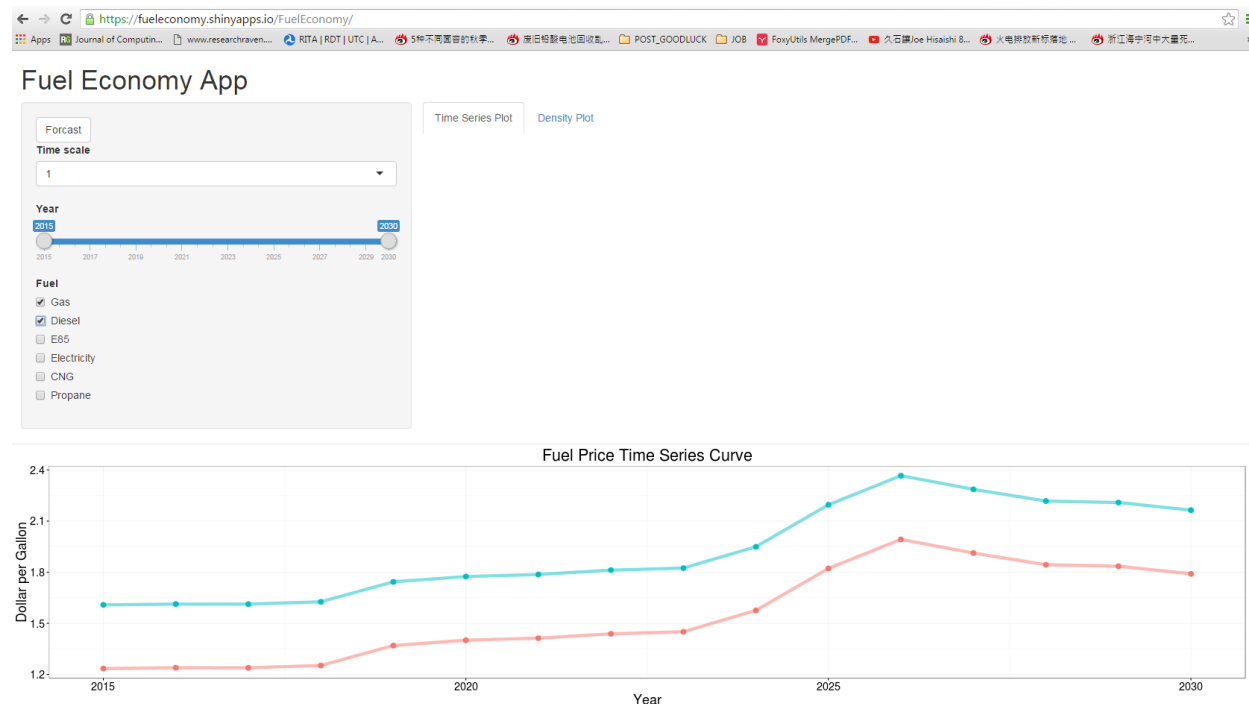

Shuguang Ji

February 13, 2016

The app can be accessed through

https://fueleconomy.shinyapps.io/FuelEconomy/

The interface of the feul economy forecasting app is shown as following.

- The user can drag the scale bar of time horizon to change the forecasting range;
- The user can also check the multiple fuel types to make comparison between fuel price;
- Density plots are also available under "Density Plot" tab.

If you have any further questions about this app, please reach me.

Thanks.
